

Social Media Revenue Intelligence

Unlocking Monetization Efficiency Per User

50,000

Users Analyzed

\$109K+

Total Revenue

200K

Ad Impressions

5.97%

Overall CTR

Analysis by **Arkadeep Kar**

Project Overview

OBJECTIVE

Increase monetization efficiency per user by identifying high-value segments and optimizing ad placements.

BUSINESS QUESTIONS

- 1 Which users generate the highest ad revenue?
- 2 What content drives maximum ad clicks?
- 3 What is ARPU (Avg Revenue Per User)?
- 4 Which demographic has the highest CTR?

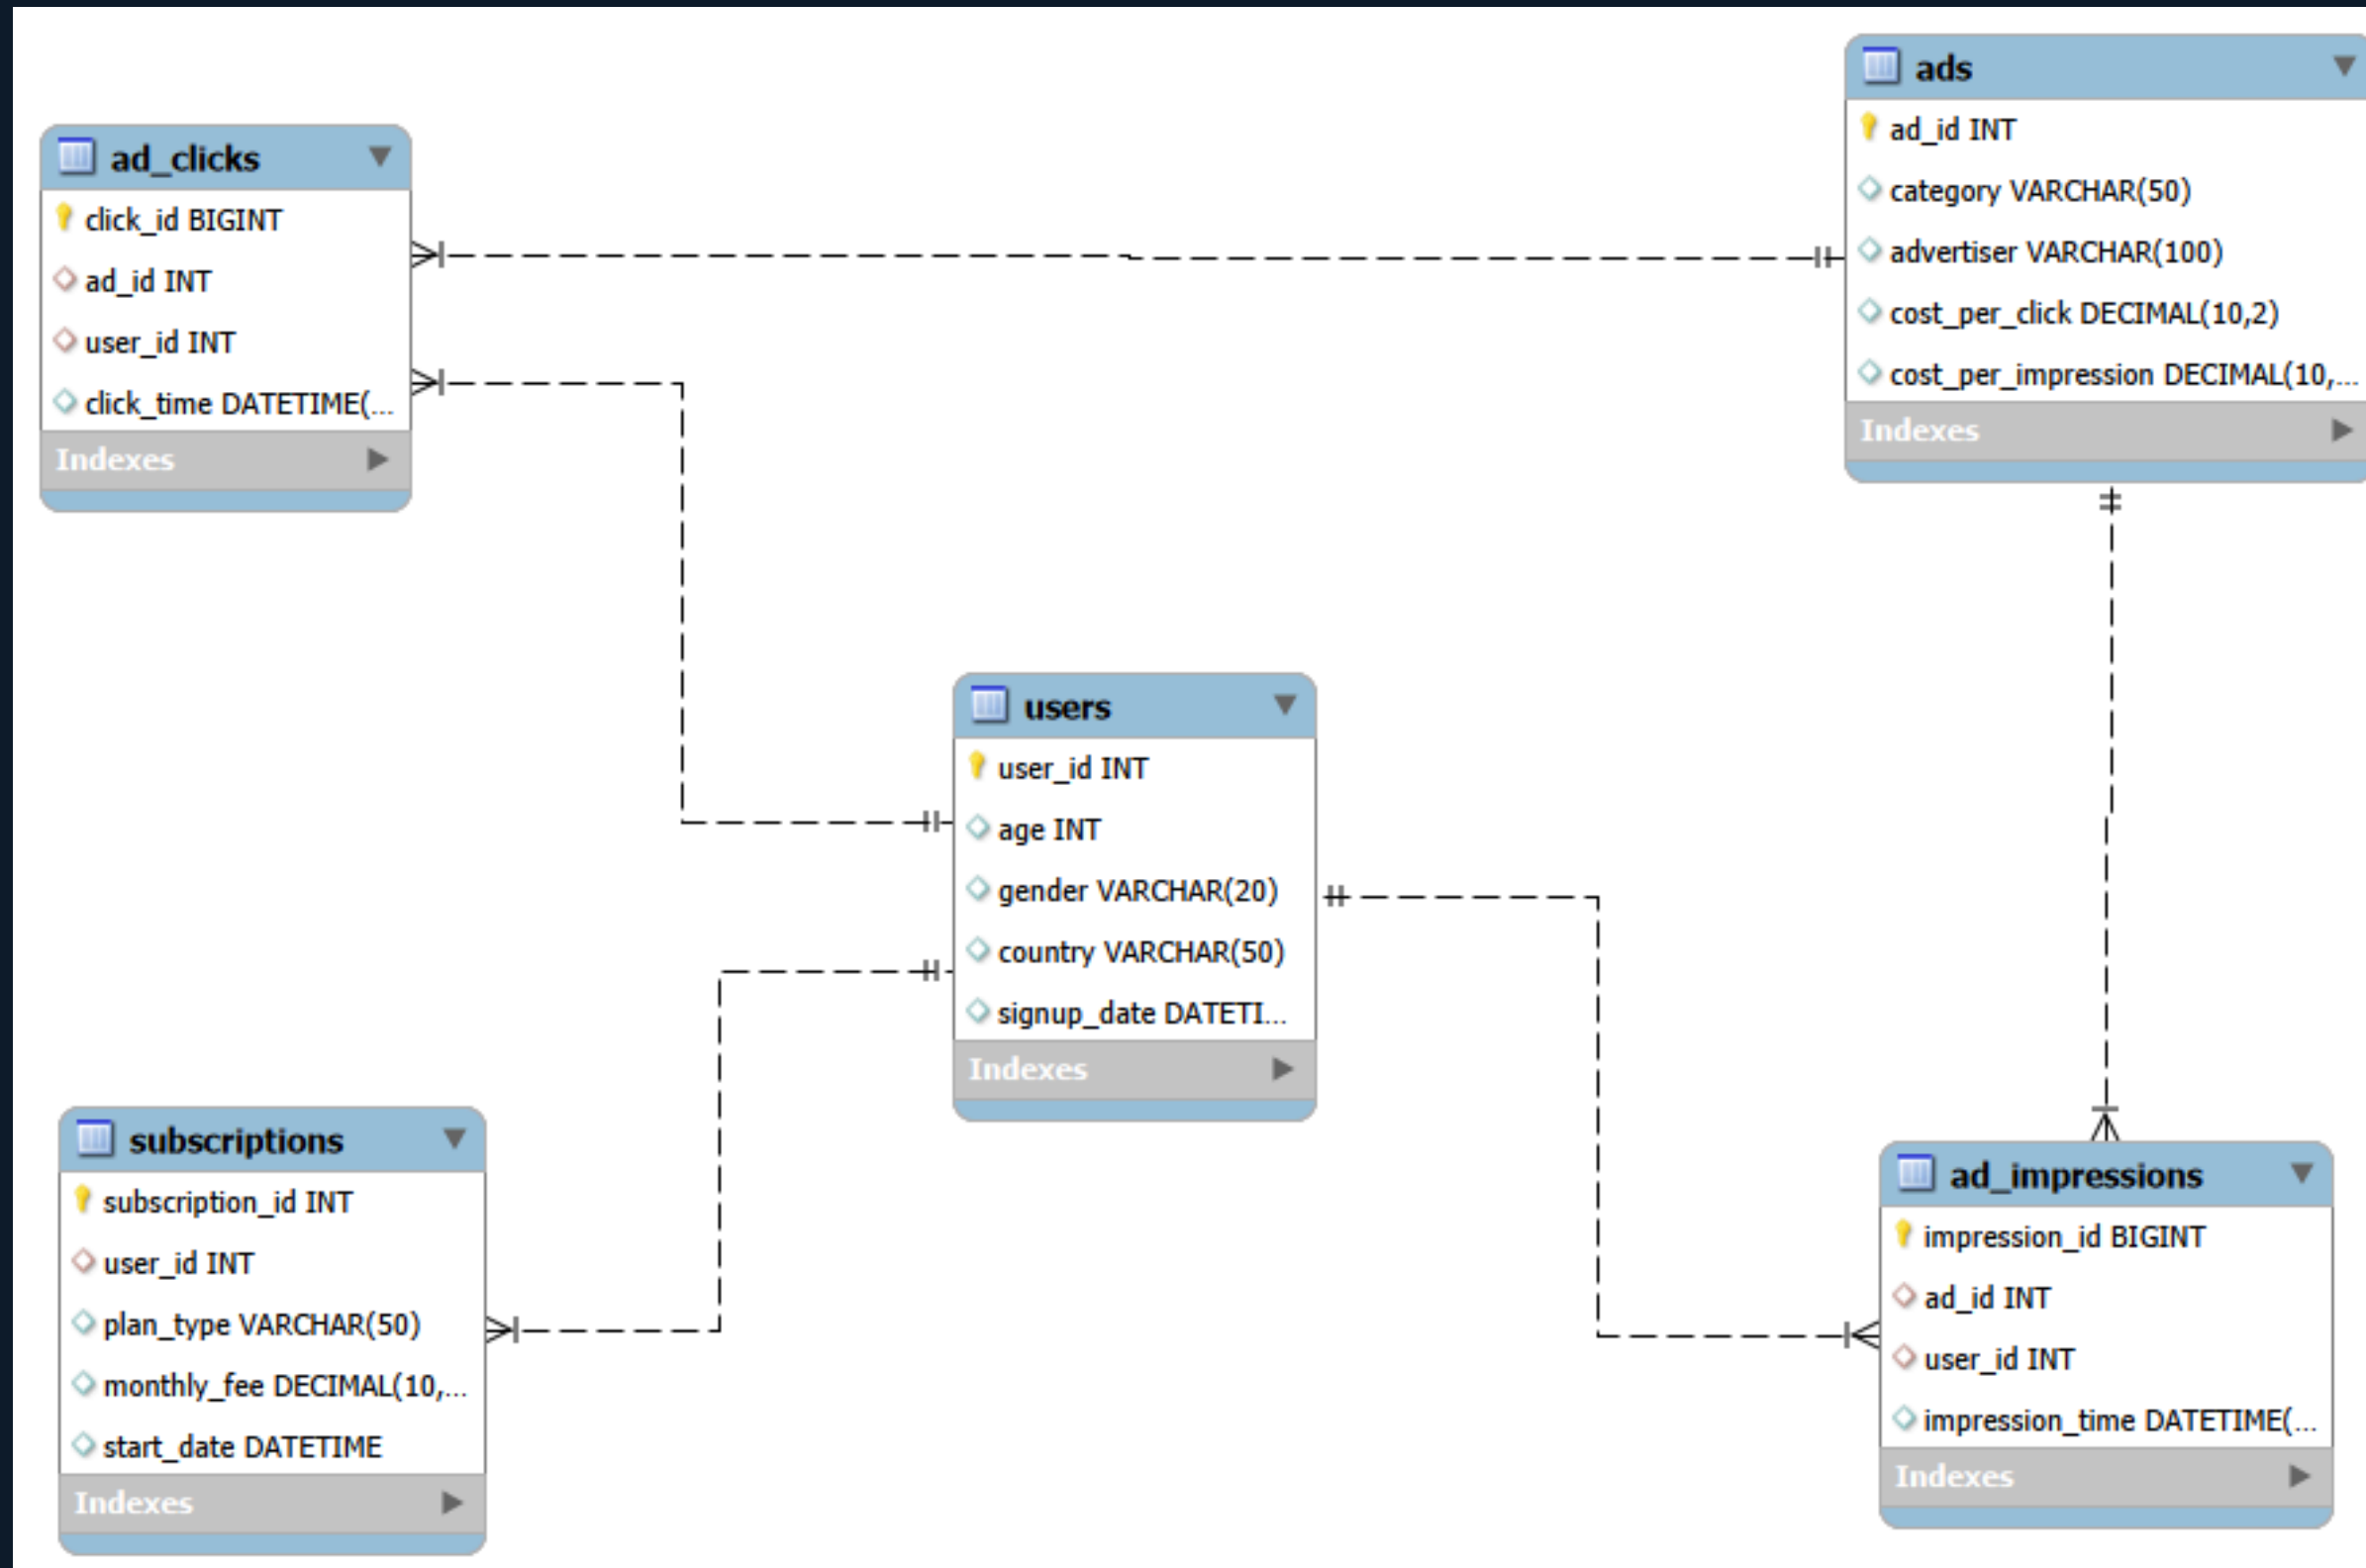

Dataset Overview

The dataset simulates a social media platform revenue ecosystem consisting of five relational tables.

Table name	Description
users	User demographics
ads	Advertisement campaigns
ad_impressions	Ad exposure events
ad_clicks	Ad engagement events
subscriptions	Paid user plans

Data Modelling

Entity Relationship Diagram — 5 tables, 4 relationships

Who Generates the Highest Revenue?

Q1: User segmentation by revenue contribution

Premium Subscribers

8,000 users paying \$9.99/mo. The backbone of revenue.

Users	Revenue
16%	\$79,920

Impression-Only

Large passive audience providing brand awareness value.

Users	Revenue
~65%	\$3,524

High-CTR Clickers

Users who click Finance & Tech ads — highest CPC at \$3.20.

Users	Revenue
~18%	\$20,197

No Ad activity

Ad-free content

Users	Revenue
~1%	\$0

Insights

16% of users (Premium) drive 77% of revenue.

CTR Performance by Category & Gender

Q2 & Q4: What content drives clicks? Which demographic converts best?

CTR BY AD CATEGORY (%)

GENDER CTR

Female 5.98%

Male 5.96%

Near parity — both genders respond equally

CTR BY COUNTRY

	Canada	6.08%
	Germany	6.05%
	USA	5.95%
	UK	5.9%
	India	5.81%

💡 Fashion & Gaming ads drive the highest CTR; Finance ads generate the most click revenue despite lower CTR.

Revenue Breakdown & ARPU

Q3: What is ARPU?

ARPU

\$2.19

Avg Revenue Per User

across 50,000 users

Total Revenue

\$109,619

REVENUE STREAMS

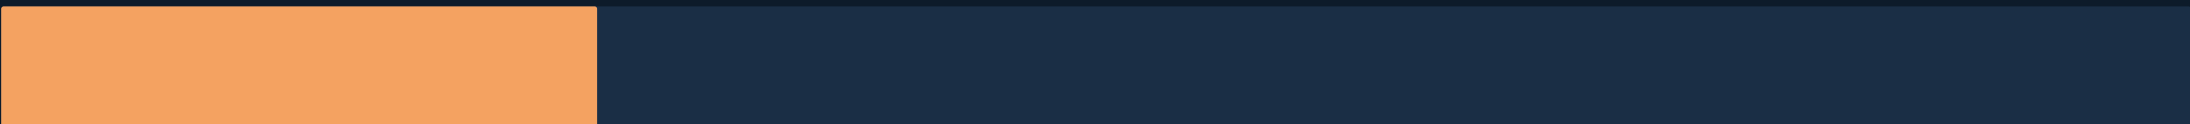

Subscriptions

\$79,920 (72.9%)

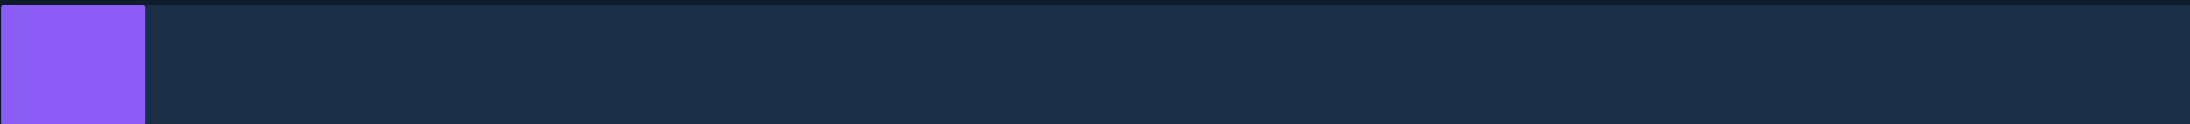

Ad Click Revenue

\$24,030 (21.9%)

Impression Revenue

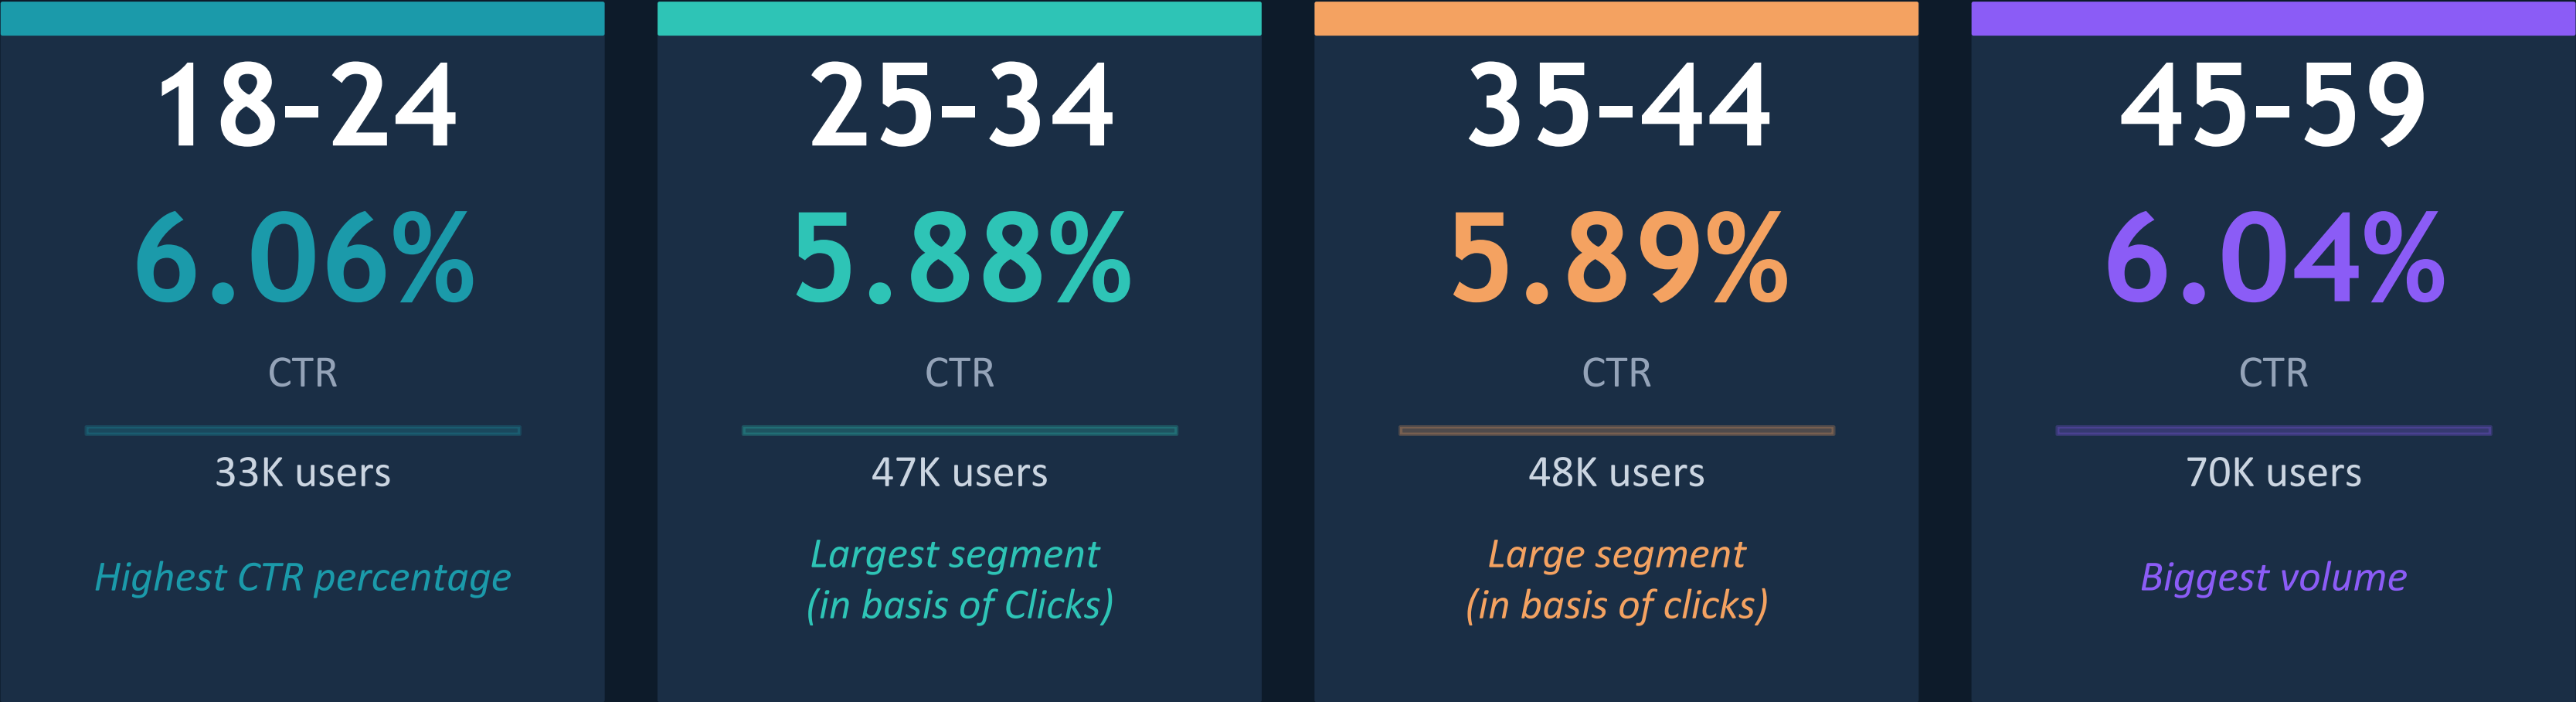

\$5,670 (5.2%)

INSIGHT: Subscriptions dominate revenue at 72.9%. Growing the premium subscriber base offers the highest monetization lever. Ad revenue is a strong secondary stream with room to optimise.

Demographic Deep Dive: Age & CTR

Q4: Which demographic has the highest CTR?

Monthly CTR Trend

Peak CTR in Sep'25 (6.17%) — trend stabilizing ~6.0% through early 2026

Strategic Recommendations

Actions to increase monetization efficiency per user

01

HIGH IMPACT

Drive Premium Subscription Conversions

Target the 84% free users with personalised upsell campaigns. Even a 5% conversion lift adds \$21K+/month.

02

HIGH IMPACT

Double Down on Finance & Fashion Ads

Finance ads yield highest CPC (\$1.42 avg) & total revenue (\$5.5K). Fashion has highest CTR (6.14%). Increase inventory in both.

03

MED IMPACT

Target 18-24 & 45-59 Age Segments

These age groups show highest CTR (6.06% and 6.04%). Serve more ad volume to these cohorts for better conversion rates.

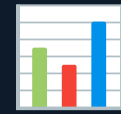

04

MED IMPACT

Geo-Optimize for Canada & Germany

Both markets show CTR of 6.05–6.08%, above the 5.97% average. Prioritise these for premium ad slot allocation.

Key Takeaways

Overall CTR: 5.97% — stable across months with a Sep'25 peak of 6.17%

ARPU: \$2.19 | Total revenue \$109,619 — subscriptions are the #1 driver (73%)

Fashion & Finance ads are the highest-performing categories by CTR and revenue

18–24 and 45–59 age groups show highest CTR; gender parity is near perfect

Canada and Germany are top-performing markets with 6.05%+ CTR
